GENERAL SUBSCRIBER SERVICES TARIFF

Pembroke Telephone Company, Inc.

Section Z  
Original Sheet 1

Z. OBSOLETE SERVICE OFFERINGS

Z.1 General

Z.1.1 Service offerings listed herein are classified as obsolete according to the following types, and each obsolete offering is designated by one of these types:

Type A Not offered for new installations on and after the specified obsolete date; any available units used only for additions to or replacements of existing service at the same location.

Type B Not offered for new installations on or after the specified obsolete date at the rates and charges shown in the obsolete offering; the obsolete rates and charges apply only to those units in service on the specified date and continue to apply thereon until changed.

Type C Unit no longer being manufactured; offered for new installations only as obtainable from existing stock.

Type D Any other arrangement; the specific provisions in each case being stated at the beginning of the text for the obsolete service offering affected.

Z.1.2 Obsolete services are furnished subject to all the rules and regulations of the Tariff the same as would be applicable if the service offering were not obsolete. For convenience in use, a Tariff Reference is provided as an aid in referring the reader to a specific Section of the Tariff having a bearing on the obsolete service offering.

Z. OBSOLETE SERVICE OFFERINGS

Z.3 Miscellaneous Equipment (Cont'd)

Z.3.4 Special Feature Telephone (Type B, July 22, 1982)

Z.3.4.1 Trendline Telephones

The Trendline telephone is a compact telephone with a rotary dial-in-hand set. This type of telephone may be furnished subject to a nonrecurring charge of \$15.00, plus an additional monthly rate of \$1.25. This nonrecurring charge is over and above other rates and charges applicable under this Tariff.

Trendline telephones have provision for a lighted dial. A transformer connected to ordinary household electrical service, provided by the customer, is necessary to light the dial in a Trendline telephone. At the subscriber's option, this may be furnished at an additional monthly rate of \$.50. If the installation of this transformer necessitates a second premises visit, the charges applicable to the installation of an extension station as specified in Section D of this Tariff will apply.

Z.3.4.2 Speakerphone

A. A speakerphone set allows the user to carry on a regular telephone conversation without the necessity of holding a handset. In addition to a handset type telephone, this arrangement includes a microphone, volume controls, signal lamp (either built in or on a separate adapter unit) and a loudspeaker. The handset portion of this unit may be used in the usual manner if desired.

B. The following rates apply for speakerphone equipment and are in addition to the regular monthly rate for the class of service furnished.

	Monthly
1. Speakerphone	\$5.00

C. The regular service connection, move or change charge, as appropriate, will apply for the installation of speakerphone service.

Z.3.5 Signaling Equipment (Type B, July 22, 1982)

Z.3.5.1 Extension Gongs

- A. Loud ringing types of signals suitable for noisy or outdoor locations will be installed on the same premises as and within 250 feet or, the main station at the following rates:

	<u>Monthly</u>
1. Extension gong, 3" or 4" indoor	\$0.75
2. Extension gong, 6" indoor	\$1.00
3. Extension gong, 6" or 10" indoor	\$1.50

- B. Extension gongs will be installed at the service connection charge specified in Section D of this Tariff.

Z.3.5.2 Extension Bells

- |                               |        |
|-------------------------------|--------|
| A. Extension bells, 4" indoor | \$1.00 |
| B. Chime toned bells          | \$1.00 |

Z.3.5.3 Horns or Howlers

- A. Signals suitable for extremely noisy locations or indoor locations where distances require extremely long carry, operating on commercial power supply furnished by the customer through a relay furnished by the Telephone Company, are charged for, each per month \$1.00
- B. Service connection charges for extension bells are as specified in Section D of this Tariff.

Z.3 Miscellaneous Equipment (Cont'd)

Z.3.6 Extra Length Cords (Type B, July 22, 1982)

Z.3.6.1 Hand telephone sets installed will be equipped with retractile receivers cords (between hand set and mounting) extending to approximately four feet in length.

Z.3.6.2 Extra cords may be obtained at the following nonrecurring installation charge

15' Cords	\$10.00
-----------	---------

Z.3.6.3 The Telephone Company may replace worn or damaged extra length cords at its option, or at the request of the subscriber, and may apply a charge for such renewals equal to the rates applicable to the initial installation.

Z.3.7 Automatic Station Dialer (Type B, July 22, 1982)

Z.3.7.1 Including associated telephone set if required at the following rates:

	<u>Monthly</u>
A. Single number auto-dialer	\$ 7.50
B. Multi-number auto-dialer	\$15.00

Z.3.7.2 Installation

A. Single or multi-number dialer	\$25.00
B. Wiring installed for use with automatic station dialer is installed at cost.	

Z.3.8 Public Address Equipment (Type B, July 22, 1982)

Z.3.8.1 A public address system allows the user to broadcast voice and/or other programs over a large area through the use of associated amplifier and loudspeakers. The area covered may be indoors and/or outdoors.

Z.3 Miscellaneous Equipment (cont'd)

Z.3.9 Extension Bells (Type B, December 6, 1982) (Cont'd)

Z.3.9.1 Extension bells are ordinarily installed on the same premises as, and within 100 feet of, the main station. Circuits required to connect extension bells off premises or over 100 feet from the main station will be charged extension line mileage, which is in addition to the regular rate for the extension bell as follows:

Monthly

A. Extension bells, 3" indoor \$ 0.50

Z.3.9.2 Service connection charges for extension bells are as specified in Section D of this Tariff.

Z.3.10 Push Buttons and Buzzers (Type B, December 6, 1982)

Z.3.10.1 Push button and buzzers installed for signaling purposes in connection with any class of service except multi-party service are charged for at the following rates:

Monthly

A. Pushbuttons, each \$ 0.25

C. Buzzers, including batteries and renewals,  
or transformer, each \$ 0.25

Z.3.10.2 Wiring installed for use with signaling equipment is installed at cost.

Z.3.11 Data Coupler (Type B, December 6, 1982)

Due to the wire variation in cost and function of data couplers, monthly rent will be applied as follows:

Z.3.11.1 For data couplers requiring no associated power supply, 1/36th of the cost of the coupler, per month.

Z.3.11.2 For data couplers requiring power supply (associated transformer and/or rectifier), 1/24th of the cost of the coupler and the associated power supply per month.

Installation of all data couplers \$35.00
